Project Blue Book

Washington, D.C.

Dear Sirs:

On Nov 29th, 1966 about 9 P.M.

PST. I saw 2 moving lights over N. L.A. which I first thought were satellites they were color and size of a lighted match seen from 100 ft. quite bright but not the color of 1st magnitude stars.

They formed a triangle with double star in handle of great dipper. For approximately 20 minutes they were stationary. I called the manager of this Hotel. While we watched light A went out 2 minutes later (about 2 min) light B flicked out. Then we saw and heard

2. a jet across the northern sky  
apparently to investigate. It made  
a wide circle and headed back  
north. The lights did not return.

When I first saw them they were  
traveling at approximately twice the  
speed of the jet (we'll say sent to in-  
vestigate). Lite B stopped 1st. Lite A  
maneuvered into position and stopped  
shortly after B. had come to a stop.

They weren't satellites and definitely  
not jets, nor stars I know of. The  
air was clear, stars bright, no smog or  
clouds. The 2 were #19 sightings of  
UFC (or something) I've seen since 1945.

Yours Truly,

DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS FOREIGN TECHNOLOGY DIVISION (AFSC)
